

Animal Medical Wellness Care plans are NOT insurance.

They're better – a new and affordable way to care for your pet.

Today, most aspects of veterinary medicine are geared toward preventive care. We believe proactive preventive care not only will improve the quality of your pet's life but will add years to it.

Our **Wellness Care Plans** provide disease prevention and early diagnosis. **Each plan is unique and affordable. The cost of preventive care is conveniently spread over 12 months.** These plans are **NOT** intended to treat unforeseen accidents, injury or illness, which would be covered as an out-of-pocket expense or through your pet health insurance plan.

Your **Wellness Care Plan** is a special relationship between you and your veterinarian to help take the financial worry out of caring for your pet.

ENROLL TODAY, and you'll know that you're helping your cat live a longer, healthier and happier life with an established pet health wellness program. **Ask one of our team members for additional details.**

7X
SEVEN TIMES

Most of us don't need a medical checkup more than once a year, but cats are different. Cats, on average,

age up to seven times faster than humans, and by age two, most have already reached adulthood. At age four, many pets are entering middle age. By age seven, cats are considered middle-age, and at age ten they enter the senior/geriatric stage of their lives.

The bottom line! Taking your cat to the veterinarian once a year is the same as seeing your doctor just once every seven years! You would not wait seven years to see your doctor or dentist for a checkup. Most cats are notorious for hiding signs of illness until they are almost at a crisis stage. **Wellness care is a critical part of your pet's health.**

Your best friend can't say "ouch"!

Many times pets are sicker internally than they let us know. A routine wellness exam can identify or prevent medical conditions early before they become major problems.

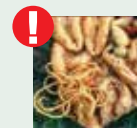

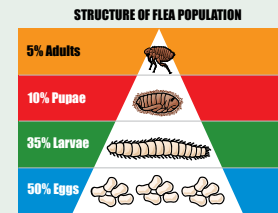

Conditions such as dental disease, diabetes, arthritis, allergies and heart disease can be diagnosed early, and many cancers, especially breast cancer, can also be detected.

Fleas & Internal Parasites

Fleas can cause a range of problems, including skin redness, excessive scratching, anemia in dogs, allergic reactions to the flea saliva or contraction of diseases carried by fleas.

We recommend a **ONCE-MONTHLY** flea and parasite preventative for your pet beginning as early as 8 weeks old. **Remember, for every flea you see on your pet, there are hundreds more in your environment.**

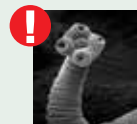

ZOONOSIS refers to a parasite or disease, like rabies, that can be passed from animals to humans. Members of your family can unknowingly pick up ZOOTIC PARASITES at the park, on a sidewalk or even in their own backyard. Children are especially vulnerable to zoonotic parasites, mostly because children play outside and sometimes have a tendency to put objects in their mouths.

Start your kitten off right!

The health requirements of a kitten are significant. Establish an early habit of preventive care for your kitten.

Kitten Basic Plan

\$36
per month

Includes:

- **Comprehensive physical exam (4X)**
This in-depth evaluation assesses your kitten's overall health and establishes important baseline information.
- **Pet I.D. Microchip**
- **All vaccinations your kitten needs**
Protects against a wide variety of diseases and infections, based on your pet's environment and health risk assessments.
- **Diagnostic testing**
This would include leukemia, feline immunodeficiency virus, and ear swab.
- **Fecal exams and deworming (2X)**
Detects and treats intestinal (rounds & hooks) parasites that can cause disease.
- **Office calls/exams (2x)**
- **Recheck exams (2x)**
SAVE \$203 per year

Kitten Complete Plan

\$43
per month

Includes All Basic Kitten Plan Services:

- **Comprehensive physical exam (4X)**
 - **All vaccinations your kitten needs**
 - **Diagnostic testing**
 - **Fecal exams and deworming (rounds and hooks 2x)**
 - **Office calls/exams (2x)**
 - **Recheck exams (2x)**
 - **Pet I.D. Microchip**
- AND:**
- **Spay or neuter surgery** including preanesthetic blood testing, blood pressure check and internal organ screens.
SAVE \$265 per year

Cat Basic Plan

Every cat needs a plan that cover basic requirements for preventative care. This plan establishes a baseline of wellness information to help keep your cat healthy.

\$28
per month

Includes:

- **Comprehensive physical exam (2X)**
This twice-a-year in-depth evaluation assesses your cat's overall health and updates important baseline information.
- **All vaccinations your cat needs**
Continued protection against a wide variety of diseases and infections, based on your pet's environment and health risk assessments.
- **Diagnostic testing**
Ear Cytology and internal organ screen
- **Fecal exam (1x) and deworming (2x)**
Detects and treats intestinal (rounds & hooks) parasites that can cause disease.
SAVE \$198 per year

Cat Complete Plan

By age three, more than 70% of cats show signs of gum disease which, if left untreated, can lead to serious illness. This plan provides dental cleaning and early screening for common diseases.

\$37
per month

Includes All Primary Care Plan Services:

- **Comprehensive physical exam (2X)**
- **All vaccinations your cat needs**
- **Fecal exams (1x) and deworming (rounds and hooks 2X)**
- **Office calls/exams (4x)**
- **Recheck exams (4x)**

AND:

- **Dental cleaning**
Prevents serious infection, tooth loss, pain, and potential for heart and kidney disease. Plus the benefit of fresh breath for your pet.
- **Diagnostic testing**
This would include, blood work, internal organ screens, and ear swab. The blood test results will provide us with a reference point or a baseline of normal values. It is important that this individual baseline of your pet's health be established before its senior years as it can be used in the future to detect changes in bodily functions that could signal a health problem.
SAVE \$254 per year

Cat Senior Plan

Although middle age to senior cats may not have the energy of youth, they still have plenty of love and companionship to offer. Often this group of pets require **proactive management** and this plan is specifically designed for this loving group of friends.

\$48
per month

Includes All Primary Plus Services:

- **Comprehensive physical exam (2X)**
- **All vaccinations your cat needs**
- **All diagnostic blood work**
- **Fecal exams (1x) and deworming (rounds and hooks 2X)**
- **Urine testing**
- **Office calls/exams (4x)**
- **Dental cleaning**
- **Recheck exams (4x)**

AND:

- **Chest X-rays (2 views)**
Evaluates the tissues, organs and bones.
- **Thyroid screening**

SAVE \$354 per year
